1880. THE PEOPLE'S PAPER. —THE— HERALD.

SALT LAKE DAILY HERALD.

The HERALD enters upon the new year with better hopes and brighter prospects than it ever before enjoyed. The remarkable success of the paper in the past, as manifested by its large and steadily growing subscription list, its increasing advertising patronage and the expressions of goodwill towards the journal which greet us from all quarters, convince the publishers that they are doing what they set out to do—namely, furnish a newspaper that the people would like, and therefore support. The HERALD, as in the past, will be the people's paper. It will always be found on the side of the people, outspoken on questions affecting the rights of the masses; battling for local self-government and the largest liberty to individuals consistent with public good; laboring for a just, honest and economical administration of government; treating public matters dispassionately and employing language calculated to enlighten the reason of men, rather than influence their passions, and working for peace and the development of the resources of the territory, instead of trying to create strife and retard progress. With our increased facilities for gathering news, both by telegraph and mail, the employment of a larger number of correspondents in different sections of the country, and the better arrangement of all the many details of the establishment, we confidently promise to make the SALT LAKE DAILY HERALD a better paper than ever.

SALT LAKE SEMI-WEEKLY HERALD

This valuable and popular edition of the HERALD will continue to make its appearance twice a week during the year, and the same degree of progress and improvement that marks the Daily will be seen in its columns. No better newspaper can be found in the west for those people who are not blessed with daily mail facilities, than the SEMI-WEEKLY HERALD. It contains all the news, domestic and foreign, in a condensed and readable form. The design has been to make it combine the distinguishing characteristics of a commercial and home journal, and we believe that this has been successfully carried out. The SEMI-WEEKLY has certainly met with unexpected high favor at the hands of the people. It is proposed to make it even more popular than in the past by reducing the price to \$3.50 per annum, making it the cheapest semi-weekly paper in the west. The reduction in price does not imply a lessening of the quantity of matter published. Its columns will continue full of news and choice literature.

SALT LAKE WEEKLY HERALD.

About the 1st of March, we will begin the publication of a Weekly Edition of the HERALD. The demand for such a paper has been very pressing during the past two or three years. The aim of the publishers will be to furnish a paper for those people who live off the main lines of travel and who are not accommodated with mail service often than once a week; to provide a newspaper for those who have only one day a week of leisure to devote to the pleasant and profitable employment of reading; to supply a suitable edition of the HERALD for reading abroad—a paper that shall faithfully and honestly represent this great and growing territory, with its many and important industries and its thrifty, enterprising people; to make a paper for the home circle and family fireside, one that shall contain the news, and at the same time combine the essential elements of a literary, educational and industrial journal. In fact, our aim will be to make the WEEKLY HERALD a welcome visitor to the home, where it will be found a constant fund of instruction, entertainment and profit, to all members of the family. Besides the leading characteristics of the Daily, the Weekly will contain matter specially for the agriculturist, the gardener, the stock-raiser, the mechanic, the kitchen and the household generally, and an important feature of its columns will be the well-chosen, entertaining and moral literature, also reports of the Tabernacle discourses. Nothing will be admitted to its columns that has not first been carefully prepared and revised. The price will be only \$2 a year, a figure unprecedentedly low for a far west newspaper. We confidently predict for the WEEKLY HERALD one of the greatest successes, and the efforts of the publishers shall be to make the paper merit the popularity that it cannot fail to attain.

Editors Herald:

Sir—On examination of the reports of the Auditor of Public Account and of the reports of the several clerks of the County Courts of this territory to the present Legislative Assembly, I find a few things which to me appear proper to be considered.

First—Criminal Expense.

The auditor reports (see p. 3) the payment, to aid in the support of prisoners in the Penitentiary, during the last two years, of \$ 859.76. Also (see pp. 8 to 22) the payment of past delinquency, the sum of \$ 1623.40. Also (see pp. 8, 23, 24, 25) payment on appropriation of 12000.00 22628.80

The aggregate of which is \$51771.96

To this sum there must be added the amount paid by the several counties to defray the expenses of prosecuting persons accused of committing public offenses. I find from the reports of the clerks of the County Courts the following sums:

BEAVER.
See pp. 2, 3, 1878, \$482.10

This county did not report for 1878, and in it I find a gross sum to officers in which the sheriff is included. This item must have been in part as far as the sheriff is concerned, for criminal expense.

WEBER.
See p. 48, 1878, 1275.78
1879, 736.15 2011.93

Aggregate paid by the several counties, Amount as above shown paid by the territory, \$ 51771.96

Total paid by territory and the counties thereof, \$96301.51

To this should be added the amount paid by the United States for support of the prisoners in the Penitentiary for the two years past. This amount would not appear in the report of the Auditor or the reports of the clerks and I have no means of determining it. But I am of the opinion it cannot be less than \$50 per year, and making in all the sum of \$132,801.51. In this computation no estimate is made for the fees and salary of the district attorney of the United States and his assistants, nor for the marshal of the United States or his deputies, except what are included in maintaining the prisoners in the Penitentiary, nor for the fees and salaries of the several prosecuting attorneys of the territory.

Second—Insanity and Pauperism.

The territory has not, nor has any county or city any asylum for the insane, nor has either any house for the poor, but these classes of persons are left to private charity, except what the counties are authorized to aid. The reports of the clerks show what the counties have done for these two classes for the last two years. I now condense these reports on this subject:

See p. 48, 1878, 459.55

Making an aggregate \$33,272.10.

There is still another class of items which ought to be considered on the subject of pauperism and insanity. Our statutes on taxation of 1878, (Sec. 18, page 17,) authorize the board of equalization to remit or abate the taxes of any insane, idiotic, infirm or indigent person, to an amount each year of any sum not exceeding \$5. The amount thus remitted or abated in each county does not distinctly appear in all of these reports. Judging from the best lights I have, this amount can be less than \$7,500 per annum, in the two years equal to \$15,000. Add this to the sum actually collected and expended and it makes the insane and pauperism the sum of \$48,272.10. Would to God it could stop here, but I cannot truthfully do so. It is a matter of public notoriety that the various charitable and religious associations of the territory feel it to be their duty to aid the indigent poor belonging to their associations, and indigent miners who are bodily exposed while at work to the mines are also aided by such other. When all these are taken into the account, and the sums thus actually expended footed up, we may conclude it will swell this amount on these classes to an extent of nearly doubling it, making it not less than \$50,000 per annum, or \$100,000 for the past two years. If I were lecturing on the burdens and wastes of society, I would call attention to these things—then pause in deep reflection that it is easier to see the burdens and wastes than to shun off the one or prevent the other. Yours truly,
Z. S. SNOW.
